

PLANTRONICS .AUDIO™ 355

Music, gaming, voice – do it all with studio quality

For quality and versatility, choose the Plantronics® .Audio™ 355 multimedia headset. With 40mm stereo speakers deliver studio-quality audio with maximum bass response – so music, DVDs, and games are even more enjoyable.

Outstanding voice quality, precise microphone placement, and noise-cancelling features ensure that Internet callers hear you clearly. And games never sounded better.

Key features:

- **Rich stereo sound** – 40mm speakers give rich sound and resonant bass
- **Noise-cancelling microphone** – reduces background noise and ensures crystal clear audio quality
- **The microphone boom adjusts** – ideal for placement for improved communications
- **Stowable boom microphone** – ensures it is neatly stored when listening to music or watching DVD
- **Convenient controls** – in-line volume and mute controls give you full control over your listening and speaking experience
- **Lightweight and adjustable** – headband delivers all day comfort
